Program:

School Board Presentation

Michael Beer introduced the School Board: Abby Raphael, Chair, James Lander, Vice Chair, Emma Violand-Sanchez, Sally M. Baird and Noah Simon. Board members updated the Federation on the schools current situation, trends and strategic plan. High per pupil costs are driven by staff, class size and other services. A recent economic impact study showed that the investment in schools pays well, and property tax revenues are higher due to the quality of our schools. Challenges remain, including racial gaps. Enrollment continues to increase, leaving a budget gap for next year of 1 to 10 million dollars. The School Board has asked for \$4.8 million above the County Manager's proposal for next year. The proposed budget totals \$539.4 million, a 3.2% increase. Federal funding has decreased. Working now on the CIP, community outreach. Questions covered a broad range of issues. HB Woodlawn's location may be reconsidered during the CIP process.
