Airport Noise Mitigation Study: – Joe Pelton (Airport Noise Subcommittee Chair) opened the presentation. In a pre-recorded video, Libby Garvey and Matt De Ferranti gave a short talk on the issue. Richard Roisman (County Staff) gave a presentation on the Noise Study and then, with the assistance of Jim Allerdice and Jason Schwartz (abc Consultants), took questions.

Will there be flight path changes proposed? Have you experienced or do you expect to see opposition from any other localities to what the report might yield? What is the wrap-up deadline for the study? What more can be done to encourage if not mandate quieter, more environmentally friendly aircraft? Is it possible to have all military and police helicopters fly at altitudes that limit the noise? Did most of the noise complaints come from those living in single-family homes or from those in high rises in the Crystal City area? Has the increasing building heights in Rosslyn further restricted options and flexibility? Can the consultant discuss whether NEXGEN changed the angle of ascent and higher flying altitudes through at least points north of Rosslyn? Can it be a contributing to the dramatically increased noise in Arlington Ridge?

Joe Pelton asked for members to join the Aircraft Noise Subcommittee (contact airport.noise@civfed.org).

VHC Trauma Center:

Virginia Hospital Center's Trauma Program Manager, Mindy Carter, gave a presentation on the new VHC Level II Trauma Center and then both Ms. Carter and Dr. Megan Quintana, Trauma Medical Director took questions.

With an existing Level 1 at INOVA Fairfax and 3 more in DC, what caused VHC to pursue this designation this year? Will you have an agreement for mutual support with Joint Base Myer-Henderson Hall and other Defense facilities? Will for both support and training exercises? Given long wait times in the ER even prior to the pandemic, how will this impact wait times for all patients? Does having the certification increase the money or state/federal/insurance compensation? Will local cases continue to go to other Centers until you get your certification? How does the COVID pandemic impact the trauma units? Does this mean that traffic around VHC will increase as a result of patients being transferred to the facility?
