

Motion for resolution introduced at the April 5, 2011 Civic Federation meeting by Kathryn Scruggs. This motion will be discussed and considered by Civic Federation member delegates at the May 3, 2011 Civic Federation meeting.

Whereas Arlington prides itself in its human diversity; and

Whereas the availability of affordable housing both encourages and maintains diversity,

It is therefore resolved that:

- 1. The Arlington County Civic Federation supports the general goal of maintaining and increasing the stock of affordable housing in our community. And,**
- 2. In order to reverse the trend of significant loss of affordable units in Arlington, the Arlington County Civic Federation calls upon the County Board to take all measures possible to include all Arlington neighborhoods in the application of County policies and practices designed to preserve and create affordable housing.**
